Abstract

Born to the most noble of Eridania nobles, the latest to continue the family heritage and responsibility as Chairman of The Floating Islands, defender of all against the forces of evil from the world beyond as well as those who would threaten from within!

ALBERT EINSTEIN, 1879-1955, **PHYSICIST** THE SCIENTIST

When we last left our hero, Knuckles was forced - by the overlander Hopper - to wear a collar around his neck. It is electronically connected to another, worn by the gorilla, Moke. They cannot separate without being electronically punished by their collars.

Forced to work together, the unhappy duo struggle to evade the evil sorceress as he contends with the hunt.

THIS JUST IN!

The upcoming "Sonic Adventure" storyline starts in **SONIC THE HEDGEHOG #78**. (See "Coming Attractions" for more info on it.) Throughout the rest of the story line, you will be introduced to many of the elements shown in the game. Such places as The Mystic Ruins and Station Square. You will also be introduced to some new characters like Big The Cat and E-101 Gamma. They'll join Sonic, Tails, Knuckles, Amy Rose and the rest of The Freedom Fighters against the evil of Dr. Robotnik. Together, they try to stop him from unleashing the power of Chaos!

At press time, SEGA's Dreamcast is selling like hotcakes. In most stores, Sonic Adventure is already sold out. If you can find it, get it because it's so much fun.

For all you fans of **KNUCKLES THE ECHIDNA**, we appreciate you for your support. Without it, we would not have had a back for the last 12 issues. Look out for future Knuckles stories to make a regular appearance in the pages of **SONIC THE HEDGEHOG** as well as our quarterly book, **SONIC SUPER SPECIAL**. On behalf of Kent, Johnny, Anthony, Vickie, Barry, Juan, Harve, Jim, Chris, Frank, Colleen, Mark, Art, Rich, Mike, Dave, Jon and myself, we thank you and bid you goodbye.

Catch you on the flip side!
